

Document Delivery from RightFind™

A world of content at your fingertips

RightsDirect's award-winning, cloud-based RightFind™ content workflow solution is used by over 8,700 organizations in 113 countries and makes content available anywhere, anytime, on any browser-enabled device.

Speed

RightFind delivers the documents you need quickly, cost effectively and copyright compliantly, processing more than 1.5 million orders annually. Our direct relationships with thousands of publishers allows RightsDirect to offer the fastest document turnaround time in the industry, with immediate access to most items and 95 percent of all orders delivered within 24 hours.

Access

RightFind's proprietary searchable database of more than 60 million citations comprises the world's largest collection of scientific, technical and medical (STM) content. The content is aggregated from our partnerships with publishers and libraries around the globe, including the world-renowned NRC-CISTI Canadian National Science Library Collection.

In the event that the content you seek is not included within our extensive holdings, RightsDirect's team of experienced Advanced Referencing Services professionals will personally research, locate, clear copyright and deliver your document.

Ease of Ordering

RightFind makes ordering documents easy with our simple Content Finder search box. Orders can also be placed by form, search and citation while logged in to RightFind, or through our easy to use QuickCheck™ bookmarklet when surfing the internet. Our innovative QuickCheck bookmarklet is easily added to your browser toolbar and allows for fast article ordering or copyright permissions checking through RightFind. When viewing an article title, journal name, ISSN or ISBN on any website you are browsing, simply highlight and click the bookmarklet to get information about the publication or to place an order.

Copyright Compliance

RightFind only delivers copyright compliant content. All document orders will be cleared through your organization's licenses, RightsDirect's direct publisher relationships, your RightsDirect license or directly through the rights holder.

Customer Service

RightsDirect provides 24/7 customer support by email, telephone, and online help resources.

Personal Libraries

Every RightFind user has access to a Personal Library, a dedicated space where the documents you purchase are automatically saved. You can also import supportive materials of most any format including PDFs, video, audio, images and MS Office documents. Folders can be created for easy storage and organization, and intuitive tools are available to tag, annotate, rate and review content for future research or review.

Payment Options

Corporations and other organizations can arrange for multiple payment options including credit cards, deposit accounts and invoice accounts with cost center billing available. Individuals can easily set up personal accounts and pay for documents using credit cards.

About RightsDirect

Based in Amsterdam and with a presence in Tokyo, RightsDirect is a wholly-owned subsidiary of Copyright Clearance Center (CCC). Working in close partnership with the world's leading rightsholders and collecting societies, we offer licensing and content solutions that reflect the needs of local and global organizations. Together, CCC and RightsDirect serve more than 35,000 companies and over 12,000 rightsholders around the globe.
