

Build a collection of  
full-text articles in XML  
format for mining

Identify full-text articles.

Download full-text,  
XML versions of articles.

Import into your preferred  
text mining software.

## RightFind XML for Mining

### Improve your text mining results with full-text XML articles

RightFind XML for Mining from Copyright Clearance Center (CCC) takes your text mining projects beyond abstracts to give you direct access to full-text scientific, technical, and medical content in XML format. Now you can identify and download full-text article collections from multiple publishers through a single source and import those results into the text mining software you prefer. You'll save valuable time otherwise spent acquiring, licensing and converting articles from individual publishers. XML for Mining gives you more accurate and richer results enabling you to make discoveries that can only be found in the full text.

## Features and benefits

### Improve the results of your text mining efforts with full-text XML articles.

Go beyond the abstract level to search, download and mine full-text articles in XML format from both company subscriptions as well as unsubscribed published material.

### Build the most comprehensive collection of full-text articles in XML format for mining.

Get the most comprehensive coverage of full-text article content and text mining rights available on the market today.

### Simplify copyright compliance.

Gain the peace-of-mind that your text mining projects comply with copyright, minimizing your organization's infringement risk.

### Reduce manual processes and save time and money.

Minimize the time and costs associated with article conversions, content management, and negotiations with publishers.

#### About CCC

A pioneer in voluntary collective licensing, Copyright Clearance Center (CCC) helps organizations integrate, access, and share information through licensing, content, software, and professional services. With expertise in copyright and information management, CCC and its subsidiary RightsDirect collaborate with stakeholders to design and deliver innovative information solutions that power decision-making by helping people integrate and navigate data sources and content assets.
