

# RightFind® Shared Libraries in Action

## PATENT FILING

Store published literature in support of a patent submission in one location.

### Benefits

- Facilitate content re-use for additional patent submissions.
- Get your citations right the first time and save time and money.
- Simplify copyright compliance.

## REGULATORY

Store published literature in support of a regulatory submission in one location.

### Benefits

- Facilitate content collaboration within regulatory teams.
- Get a clean document copy that meets regulatory eCTD and other standards.
- Export and generate citation references in a few clicks.

## COMPETITIVE INTELLIGENCE

Share competitive information about a specific product.

### Benefits

- Follow, share, rate, and comment on competitive information.
- Curate citations so researchers can quickly determine the right content to purchase.
- Organize the way you want based on your tagging structure.

## PHARMA-COVIGILANCE

Centralize literature for adverse event monitoring.

### Benefits

- Save time with an easy process for literature review and collaboration.
- See the history of all changes in a shared library with an audit trail.
- Customize a shared library to support your pharmacovigilance process.

## MEDICAL AFFAIRS

Organize access to the latest, approved literature to quickly answer client inquiries.

### Benefits

- Save time and locate the literature you need in seconds.
- Use full text searching to quickly find relevant information.
- Simplify copyright compliance.
