Features and benefits

Speed

RightFind delivers the documents you need quickly, cost-effectively and copyright-cleared, processing more than 1.8 million orders annually. Our direct relationships with thousands of publishers enable fast turnaround time, with immediate access to most items. We deliver over 96 percent of all orders within 24 hours.

Access

RightFind's proprietary database includes more than 140 million citations, including 3 million open access articles comprising a comprehensive collection of scientific, technical and medical (STM) content. The content is aggregated from our partnerships with publishers and libraries around the globe, with access to popular databases such as MEDLINE®.

If the content you need is not included within our extensive holdings, CCC's team of experienced Advanced Referencing Services professionals will personally research, find, clear copyright and deliver your document.

Personal libraries

RightFind users have access to their own personal library, centralizing research in one place and saving time when accessing content.
